## Action Items

---

#	Due	By	Item Details
1	4/9/2020	Callum	Create Pull Requests for the previous Sprint's features.
2	4/9/2020	Callum	Meet Friday for additional planning.

## Discussion Notes

---

**Item #3**

- Considerations were brought up on the encryption method of passwords and how to authenticate users. This included the point that it would be good to have authentication be handled internally on a separate server to have an extra layer of security. This is not a requirement of this sprint.

**Item #4**

- It was decided that ultimately the shift times that can be picked for bookings will be decided by the business based on the worker's availabilities. This was decided so that any workers that may work at more than 1 business will have greater flexibility with their shifts.
