M2 Meeting #3– General discussion and catchup

Meeting Details

Date:
7/9/2020

Platform:
MS Teams

Members Attended:
Adrian Vong
Callum Ackland
Giacomo Pirrone
Matthew Walters
Sovatharo Huy

Members in Apologies:
None

Meeting Discussion Items

#	Item Details
1	Showcase work completed ready for business owner interview.
2	Discussion of Dockerising Containers

Action Items

#	Due	By	Item Details

Discussion Notes

Item #2

- During this meeting we discussed the need to dockerise the front-end and back-end apps. We raised the issue as a team that Windows Sub System for Linux 2 is not available for install on everyone's computers and as such the process of dockerising the front and back end must be limited to those who's computers are capable.
- Additionally, we noted that ultimately, we would like to have multiple backend services that can be scaled using Kubernetes. As such the use of docker must become common place in the way we develop.
